6th KIOS Graduate Training School
on Intelligent Systems & Control

📅 **2 - 5 September, 2024**

📍 **University of Cyprus**   Zoom (TBA after registration)

University of Cyprus

IMPERIAL

The KIOS Graduate Training School is an annual event organized by the KIOS Research and Innovation Center of Excellence at the University of Cyprus, in collaboration with Imperial College London. The School is open to researchers, PhD/MSc students and young professionals from Cyprus and abroad who want to enrich their research skills and experience in Machine Learning, Optimization, Control Theory and related areas.

Prof. Jalal Kazempour

Technical University of Denmark

Course Title:
Electricity market design and bidding strategy

Prof. Awais Rashid

University of Bristol, UK

Course Title:
Cyber Security of Industrial Control Systems

Prof. Florian Dörfler

ETH Zürich

Course Title:
Data-Enabled Predictive Control of Autonomous Energy Systems

Advance registration is required by **August 23, 2024** for both physical and virtual attendees.
