

IMPACT YOU

INNOVATION IMPACT PROGRAM 2024

If you are a **Master's** or PhD graduate in a scientific field like Chemistry, Engineering, Material Science, Data Science, Physics, or similar, then we have amazing news for you! **Henkel Adhesive Technologies** is offering new and exciting positions for **international STEM** graduates to join our **Innovation Impact Program 2024** at our headquarters in **Düsseldorf, Germany**.

This program is the perfect launchpad for you to **KICK-START YOUR CAREER IN R&D**.

As part of this exclusive **18-month rotational program**, you will:

- ✓ **Explore different R&D areas** within Henkel Adhesive Technologies, gaining a broad perspective on the industry's latest innovations.
- ✓ Receive **1:1 mentorship** from experienced colleagues **and training** to accelerate your professional growth.
- ✓ Enjoy job security with a **permanent contract** from day and **relocation support** to help you settle into your new life in Düsseldorf.
- ✓ Build your **global network** by collaborating with colleagues worldwide.

Applications are now open until **August 4th, 2024**.

We can't wait to welcome you as part of our new generation of talented innovators. Please refer to our website www.henkel.com/careers/innovationimpact for further details.
