Platform Development Poc3
ICT specialists & software engineers

DATE
November 27, 2024

TIME
14:30 – 15:30
CET (Central European Time)

The CREAMS technical webinar will provide ICT specialists and software engineers with insights on using, interacting with, and enhancing the CREAMS platform. It will begin with an introduction and a showcase of virtual exhibition galleries created by art students using CREAMS. This will be followed by a live demo of the platform's final version and a detailed overview of its technology stack. The session will also guide stakeholders on setting up, using, modifying, and developing the open-source platform.
